Dance Real Slow

Easton Corbin

Always running like I'm racing, road keeps spinning while I'm trying to
Chase it down.
Always sooner never later and I only know one way to slow It
Down.
I want to hear you breathing, feel your head there on my shoulder,
Man this whole crazy life is moving way to fast
I want to dance real slow
Put your arms around me
Let me hold you close
Girl I want to hear you tell me
Don't let go
I love it when we dance real slow
We can go out honk-tonkin or stay here where no ones watching, me and you.
Light a candle in the kitchen, I can clear a spot out if you want me

To.
Put on a record find a station on the radio if it's too rocking all we
Gotta do is close our eyes and
Dance real slow
Put your arms around me
Let me hold you close
Girl I want to hear you tell me
Don't let go
I love it when we dance real slow
Like we're the only people left in the world. There ain't nobody here but
Me and you girl. What you say we give it a whirl
Girl I want to hear you tell me
Don't let go
I love it when we dance real slow
