Moniker

ARI

I am the warring period
I am the warring period
I am the point in time
That makes you take it in
I am the dying plague of old
I am the one that you call home
I am all there was- and all they'll ever beRenaissance man with your heart in your hand
Sing along to the victory plan
Play us off with the snare of your clan
Gamble pride in exchange for land (x2)(Warring Period Verse)What is the point of dying alone?
When every nation is just skin and bone
They've been around ever since the start
Why can't everyone just play their fucking part?I will always be first.
You will always be second best (x2)(Warring Period Verse)
