Invisible Justice

Jean B. Gerbier

Invisible Justice

It sounds in a way, what you had actually been furious about, was the close relationship between me and an extra lover. For you this act of defiance had meant the crossing of the Holy fire. You had left in the wake of this assertion for your own independence from me.

Chorus
Invisible loyalty, loyalty commitments are like invisible.
Invisible loyalty, you must think in your heart of your unconscious guilt.
Invisible loyalty, I am calling on justice for the humankind world.

In substantial and important ways, you had never return. The affection I had from the old extra love affair had not certainly been any better. What could have been the feeling from you in leaving home in this fashion. you couldn't have separated so abrupt from me without self reproach.
