I Drew Me

Mark Chesnutt

Little Billy drew a firefighter
Mary drew a doctor
Bobby he just drew a ball
We all knew he play soccer
Richard drew a race car
And Taylor drew a guitar on her kneesAnd I drew me with you
Your eyes were as far as I could see
Of all the things a boy would want to be
Back then I knew, so I drew me with youNow Billy ain't no firefighter
And Mary's not a doctor
Bobby got to college but
Tore his knee up playing soccer
Richard watches Nascar
And Taylor's raising babies on her kneeAs for me, I'm with you
Your eyes are as far as I can see
No one wound up what they thought they'd be
But me I knew back when I drew me with youYour eyes were as far as I could see
Of all the things a boy would want to be
Back then I knew, so I drew me with you
