Scars (feat. Ryan Tedder)

Advisory - the following lyrics contain explicit language:

I think scars are beautiful
I think black is white
I'm stuck between the hell I'm in and where we lay
You say that this could kill you
Your words cut like the knife
We are the beautiful mistake
That I can't findSo I, I, I don't care if it kills me tonight
'Cause I, I I'll be loving these scars for life!
And I, I, I don't care if it kills me tonight
'Cause I, I, I I'll be loving these scars for life!I think that we are chemicals, I think the dark is light
And I know each and every wrong you right
You say that this could kill you, your words cut like a knife
And we are the beautiful mistake that I can't findSo I, I, I don't care if it kills me tonight
'Cause I, I I'll be loving these scars for life!
And I, I, I don't care if it kills me tonight
'Cause I, I, I I'll be loving these scars for life!And I, I, I don't care if it kills me tonight
'Cause I, I, I I'll be loving these scars for life!
For life,for life,for life,for life,for life,for life,for life,for life,for life
I'll be loving these scars for life
