Interrogation

Bossman

Yes, you're so funny, let's be friends, okay
I'm not exactly the most wanted criminal
No, I'm not, I wasn't and I'll never be
Well, may I question your interrogation strategiesCould you please hold me down
Feed me your policy
While I try and defend my right to disagreeEverything can be used as a weapon
Everything that I say will be used against me
What will be left of me?Make me believe your ideas
What is your empire worth?
If you're afraid of me
If you're afraid of meYou'll never hesitate to invade my privacy
Do not pretend, your men do not follow me
Everything that I say will be used against me
What will be left of me?Make me believe your ideas, the end of history
Make me believe your ideas
What is your empire worth?Make me believe your ideas, the end of history
Make me believe your ideas
What is your empire worth?
