Stop the Clock

Tonio K.

Someone could have saved the day
But who'd have guessed it, who could know
Just how fast the time would go?
Someone should have shot that pictureOh, stop the clock
Stop the clock
Stop the clock foreverSomeone could have loved you better
Someone should have been the one
But hearts get broken, homes get wrecked
The world's still fallen I expect
Still, someone could have loved you betterOh, stop the clock
Stop the clock
Stop the clock foreverOh, stop the clock
Make it stop
Stop that clock forever
When will it end?Someone take this clock and break it
Stop the world and then remake it
Stop the sorrow, dry the eyesGod knows how but someone try
Someone take this clock and break it
Take this heart and then remake itOh, stop the clock
Stop the clock
Stop the clock foreverOh, stop the clock
Make it stop
You know it's now or never
When will it end
