

# Never Let Me Down

Lukas Graham

There's just something about her  
She got me working harder  
She is always on my mind  
Oh, oh, oh I tell you

She's got something that's better  
It holds my world together  
When she's with me I'm alright

And everywhere I go  
Empty handed  
Feeling we've been parted for so long  
That's why I keep you right here in my palm

You never let me down!  
I swear you're a blessing  
Oh! Ain't you the best thing?  
Wow! Love everlasting  
Never get me wrong  
Oh, you let me be-eeee-eee, be-eeee-eee, be-eeee-eee,  
Do that love me

Come on! Come on

Back at the ball I was having my drink  
Talking to my lady, never needed a shrink  
Somebody sent me a smile and she threw me a wink  
She asked, "Are you single?"  
I said, "What do you think?"

Girl, everywhere I go  
Empty handed  
Feeling we've been parted for so long (long)  
That's why I keep you right here on my arm

You never let me down!  
I swear you're a blessing  
Oh! Ain't you the best thing?  
Wow! Love everlasting  
Never get me wrong

Oh, you let me be-eeee-eee, be-eeee-eee, be-eeee-eee,  
Do that love me

Bum-bada-bumbum-badadabada?

Come on!

I like to mix it, girl  
I like to twist it with you  
I like to shake it, girl  
I think I'll make it with you  
I like to mix it, girl  
I like to twist it with you, you, you

You never let me down!  
I swear you're a blessing  
Oh! Ain't you the best thing?  
Wow! Love everlasting  
Never get me wrong  
Oh, you let me be-eeee-eee, be-eeee-eee, be-eeee-eee,  
You gotta love me

Come on!  
Come on!  
Come on!
