Yeah
Ima do what it doFirst Verse:
So consumed with being nice that I forgot to live my life
Such a people pleaser, now I see I wasted so much time
Yes they like me, but they expect me to be there at a drop of a dimewell I changed my mindChorus:
I used to be a people pleaser, but I had a change of mind
I used to be a midnight teaser, now I just wanna take my timeVerse Two:
So obsessed with holding on that I forgot to just let go
Listenin to abusive speech instead of letting feelings show
And Im so tired of dealing with these guys, that all they do is take
From their rations to reactions
You and I both know its fakeChorus:
I used to be a people pleaser, but I had a change of mind
I used to be a midnight teaser, now I just wanna take my timeVerse Three:
So concerned with giving all I had and more and more times four
And I am not the one who stands outside when they have locked the door
Cause this is mine and every other man who dares to make a stand
Theres a time to raise your voice and a time to raise your handsChorus:
I used to be a people pleaser, but I had a change of mind
I used to be a midnight teaser, now I just wanna take my timePeople pleaser
Midnight teaserBridge:
Jim Crow, Cornrow, Afro, we grow, new show, cash flow, big dough, hell no, bestow, I go, two friend and foe, although, they blow, you know, I go...Chorus:
I used to be a people pleaser, but I had a change of mind
I used to be a midnight teaser, now I just wanna take my time
