Some Things Never Change

Tim Mcgraw

After all this time, I still miss you everyday
The same world spins round
I guess some things never changeSometimes I go out but it never feels the same
I still look for you
Baby, some things never changeWhen I said I'd love you for eternity
I just never knew how true those words would be
Just an old love songJust a mention of your name
My heart breaks in two again
I guess some things never changeMaybe someday, someone else will set me free
Until then I'll live with your loves legacy
And I'll keep holding onHoping you'll come back someday
You can rest assured
Baby, some things never changeGirl, I'm still in love with you
I guess some things never changeI still love you
I guess some things never change
