It's Gonna Rain

So Many Dynamos

It's gonna rain outside
I can tell by the clouds
In the sky whoa, whoa
Uh-uh oh uh-uh

You used to come
And see me baby all the time
People see you walking down the street
They say you were mine
We use to love each other baby
Ah that's all
Well I can still remember
Your skin so soft

It's gonna rain outside
I can tell by the clouds
In the sky whoa, whoa
Uh-uh oh uh-uh

You would come and see me
Baby gave you all I had to give
Sometimes when you left me
I didn't know if I was gonna live
Used to watch the suns come up
And the moons go down
We used to take off our shoes
And stamp our feet in the ground
Oh yeah
