K Car

Relient K

Is it just a car
Or is it so much more?
It's a superstar
With the gas to the floor
Zero to sixty in remarkable time
It's the automobile that's top of the line
We got a k car on the road of life
We're gonna get far if the driver's Christ
Is it just a car
Or is it so much more?
It's a superstar
With the gas to the floor
In a drag race all the others fall
And Brandon Ebel just gave us a call
