Days Like These

Natalie Grant

Days like theseRolled out of bed on the right side
Looking up at the big blue sky, oh yeah, oh yeah
Who I am is what I am
A piece in a part of a bigger plan, oh yeah, oh yeahBreathe deep
Taste the moment
Few and far betweenDays like these, they don't get any better
Let this be for always and forever
Every minute is so perfectly
Just the way that it was meant to beDays like these, so graceful that I'm falling
On my knees and thanking God for all the
Little things that make me wanna say
How I wish I had a million days like theseLife is running like a dream
I know I can do anything, oh yeah, oh yeah
Days like this I could believe
The sun is shining just for me, oh yeah, oh yeahEyes closed
Touch the freedom
And never let it goDays like these, they don't get any better
Let this be for always and forever
Every minute is so perfectly
Just the way that it was meant to beDays like these, so graceful that I'm falling
On my knees and thanking God for all the
Little things that make me wanna say
How I wish I had a million days like theseIt's as if I never knew that clouds existed
If there ever was a day to take a chance I'll risk it
I'll take it, embrace it and never let it go, won't let it goDays like these
Days like these
Days like these
Days like theseDays like these, they don't get any better
Let this be for always and forever
Every minute is so perfectly
Just the way that it was meant to beDays like these, so graceful that I'm falling
On my knees and thanking God for all the little things
Oh, how I wish I had a million days like theseDays like these I could believe
The sun is shining just for me
Big blue sky dont ever fade
I live for days like these
