Imperium (MathizM Remix)

Machine Head

Hear me now
Bearing down upon a path we choose
Chosen from the start living different rules
Existence something to cherish true
Will not succumb to doubts that I hold onto
Release the fear of my pain
In so much pain
Give me the will to fight
Every obstacle that I have inside
Release the fear andHear me now
Words I vow
No fucking regretsFuck these chains
No god damn slave
I will be differentI'll stand here defiantly
My middle finger raised
Fuck your prejudiceAll my life
Always I've felt alone
Conditioned to believe that I'm always wrong
Only truth will help to set me free
My every weakness I must turn into strength
Every rage, every tear
Hate in so much hate
Never that pain will bind me
Ask of myself if I've the will to unwind
Every rage and tearHear me now
Words I vow
No fucking regretsFuck these chains
No god damn slave
I will be differentI'll stand here defiantly
My middle finger raised
Fuck your prejudiceCarved upon my stone
I will go on
Patience, belief
Love will ascendJust listen to it
Voice so true inside calling
To pick you up and march you on
Keep from falling
Let go your sorrow
Sun will shine, this I promise

Rising tomorrow
RisingHear me now
I'm taking back the control
Of my
Life from societies hold
I vow
No more will I be a slave
Rise to
Challenge the whole human raceMy spirit you cannot break
When we won't lose!
