Yours Is an Empty Hope

Nightwish

Hack me into bits and join the sea
Of screen name verbal vanity
Churning the words imbued in filth
Your tongue oily water under my bridgeYou have the world, it's all for you
I wish you'd find the lost in you
Grateful for the pain, it proves we're alive
Can you feel it?I can't make you want the truth
It's up to youYours is an empty hope
Yours is an empty hopeFeed me to pigs in your fantasies
Your sear roars bitter elegies
Like narcissists who bribes the pool
A hollow voice, ruin with a roofStop! Your life is now, still all for you.
Turn from the hate, turn from the smoke.
I see the parchment of your soul,
The notes, The Song
Join Your VoiceI can let you have the world, all for you.Yours is an empty hope
Yours is an empty hope[Instrumental]YOURS! IS! AN!... EMPTY HOPE!
YOURS! IS! AN!... JOIN IN NOW!I can let you have the world, all for you.Yours is an empty hope
Yours is an empty hope
Yours is an empty hope
Yours is an empty hope
