# Night Owl (Boston Bun Remix)

## Metronomy

Don't need your number babe,
But I'll take it anyway
I spend the nights recalling
Our showers in the morning
And what you said that day
I'll take it to the grave
But once I'm in the grave,
You won't care anyway[Chorus]
So let's imagine right now
I'm just another night owl
And if you're going out tonight girl (?)
The city is my lighthouse
(x2)No need for comfort babe,
But I'll take some anyway
Don't need the rollerblades
You got on holiday
I'll take the feelings that I wish I never had
You take your favorite band
That shit was always bad (?)I think I've seen a ghost
She walks along this coast
And on the breakfast shows (?)
All the FM radio hosts keep playing "Paparazzi"
(?)
