Termination

Syncrotek

They are coming you know who
to take us over
they talk to them
you know the government
the aliens, they're here
empire built on blood and bones
take a look at where we're going
stepping over fallen friends
time and time again
here they come to overtake
we're their toys
they've come to overtake
they've come to break us down to the ground
TERMINATION
we're their toys, perfect society, they fuck with our heads
and kidnap the face,
they fuck it up
this fucked up place
empire built on blood and bones
take a look at where we're going
stepping over fallen friends
time and time again
here they come to overtake
we're their toys
they've come to overtake
they've come to break us down to the ground
TERMINATION
they may wipe off this shitty place
this ruined planet
this dying race.
