Satellite

Super Stereo

Let's go, let's go!Spin around the world
at the edge of space
drawn to an energyWatching as the sun
lights up your face
you can do anythingSo satellite
Satellite
Satellite
Satellite...Looking down at night
only light defines the earth
wait for the energyFrom the moment
dark gives light a turn
we watch you go...So satellite
Satellite
SatelliteSatellite...Satellite...SatelliteWhat do you and I have in common
We'll never meet you'll never see me coming...
Down
Coming Down
Coming...So satellite
Satellite
Satellite
SatelliteWhat do you and I have in common
We'll never meet you'll never see me coming
Down
