Soul Mate

Rickey Godfrey

Gerald Levert - Soul Mate
Verse 1
Everyone needs someone they can talk to
If it's fine with you they would walk through
with no hesitation be there
they care for you
And everyone needs someone they can run to
In the nick of time they are
sure to come through
Cause they have your best interest at heart
Their part, part of you
Chorus
We all need a soul mate
Someone to hold
when the nights become cold
Someone to love
We all need a soul mate
A shoulder to cry
just to help us get by
someone for us
Verse 2
Now who in the right mind
wouldn't want a love they
can have for a lifetime
someone they can cherish
someone they can share with for life
may one person, no, no, no, no, no

And who wouldn't want someone
they can dream with
Not to mention any more proud then to be seen with
your lover and your best friend
times like these we appreciate
Chorus
Got to hear me yall
You got to hear me now
soul, soul mate
Got to be with me now
We all need a soul mate

Someone to hold when the nights become cold
Someone to love
Shoulder to cry just to help you get by
Someone for you and me, me and you
Baby, baby, baby. baby, baby, baby
We all need someone to love sometime
Someone to hold on to, listen baby
Ooooooooooooo
yeah, yeah, yeah, yeah, yeah, yeah
We all need a soul mate
Someone to hold when the nights become cold
Someone to love when its cold outside
And I need a shoulder to cry
to help me get by
yeah, yeah, yeah, yeah
