Endless Forms Most Beautiful (Orchestral Version)

Nightwish

Come on, hope on, let's take a ride
Come and meet the travelers who came to town
They have a tale from the past to tell
From the great dark between the starsWe are a special speck of dust
A fading moment on an ark
A celebration, a rest haven of loveLay on the field of green with mother
Leave with father by reaching high
Look, put yourself in the eyes of all (In the eyes of all)
Unfolding rendezvousDeep into the past
The lonely eon path
Greener blade of grass
Every endless form most beautiful
A life of wearing on
Before the grandeur of it all
A floating pale blue ark
Of endless forms most beautifulBeyond eons we take a ride
Welcoming the shrew that survived
To see the Tiktaalik
Take a first walk, witness the birth of lightKeep it down in Panthalassa
The karyotype finds her way
We return to the very first one
With the one we'll soon becomeLay on the field of green with mother
Leave with father by reaching high
Look, put yourself in the eyes of all (In the eyes of all)
Unfolding rendezvous
Deep into the past
The lonely eon path
Greener blade of grass
Every endless form most beautifulA life of wearing on
Before the grandeur of it all
A floating pale blue ark
Of endless forms most beautifulDeep into the past
The lonely eon path
Greener blade of grass
Every endless form most beautifulA life of wearing on
Before the grandeur of it all
A floating pale blue ark
Of endless forms most beautiful
