Keepsake

Inanna

It's been thirty-one years
Since she's been in your arms
But don't worry about Mama
Mama's got a good heart

And I'm not looking for your love
I'm only sniffing out blood
Just a little taste of where I came from
And at the bottom of this river
Is where I put you down to lay
So I can live with it
And in my heart there are these waters
Where I put you down to lay
While I learn to live with it
Until I'm free

And it's been all my life
I've been wondering on the inside
What we could've had
If you'd had a part in my life

And there were children involved
And they were brothers to me

Even if we never got to meet

And at the bottom of this river
Is where I put you down to lay
So I can live with it
And in my heart there are these waters
Where I put you down to lay
While I learn to live with it
Until I'm
Free at last from this shadow that hangs
Surely you wonder sometimes
And I'm sure you all sympathize
Just what a man's to become, just like his daddy's done
I just want to love someone
Who has the same blood

And at the bottom of this river
Is where I put you down to lay
So I can live with it
And in my heart there are these waters
Where I put you down to lay
While I learn to live with it
Keepsake
Until I'm free
