

# Poor Baby

Roy Orbison

Glittery eyes, witchy smiles  
A good time is all you were after  
Skin tight thighs, little, white lies  
Put you in the center of the laughter  
But your reign of queen is over  
Your fortress has been broken down  
You're still the center of the laughter  
But your role has changed to the clown  
Ooh, poor baby, someone broke your heart in two  
Ooh, poor baby  
Who would have thought it could happen to you?  
Poor baby  
A pretty face, sweet talking ways, got you a part of the action  
A come-over-touch, glances and such  
You always had to be the main attraction  
Now you're the one who's crying  
You lost at your own lonely game  
You're still the center of attraction  
But now I'm gone, you've got yourself to blame  
Ooh, poor baby, someone broke your heart in two  
Ooh, poor baby, you let someone get much too close to you  
Poor baby, poor baby, poor baby, poor baby, poor baby
