Too Soon to Know

Don Gibson

It's too soon to know if I can forget her
My heart's been broken in too many pieces
And it's too soon to knowTime passes slow, will I ever know
If I can forget her and not let it show?
It's too soon to knowNews travels fast when love affair ends
People keep asking what happened to themBut it's too soon to know if I can forget her
My heart's been broken in too many pieces
And it's too soon to know
My heart's been broken in too many pieces
And it's too soon to know
