

Chasm (Version 2.1.0)

Circle of Dust

Lost among the recesses of the undefined
Ethereal psychotic haze
Seemingly endless is the fall - no stable memories to recall
(you came and took the rest of them all)
No sure warning ever heard
"you are fragile"
When you expect the pain - nothing more to ascertain
When you respect the lie - deadly chasm opened wide
Victim of the killers seething in the deepest mind
Ever existing out of phase
Steadily falling out of line - no trace of living left to find
(you came to make me one of your kind)
Don't leave me here
Please don't leave me here
Gave me so much to fear
You've left me with such pretty scars...
