I Believe In America

Chris LeDoux

This country's seen some hard times
Lord knows she's deep in debt
She's comin' through another depression
And for some it ain't over yetWe've all been divided
Playin' our own selfish games
Why does it always take the hard times
To get people back together againBut I believe in America
I believe in America
One nation under God
Still proud and strongI believe in America
I'm proud to be in America
Though I know in America
We've gotta right, some wrongsBut I don't believe you can keep
America down for longNow if you read the papers
Or listen to the news these days
Sometimes there don't look like
There's much hope left for the good ole U.S.A.This country she ain't perfect
But thank God she's still free
An' she's gonna make her comeback
Yes Sir, just you wait and seeAn' I believe in America
I believe in America
One nation under God
Still proud and strongI believe in America
I'm proud to be in America
Though I know in America
We gotta right, some wrongsBut I don't believe you can keep
America down for longI believe in America
I believe in America
One nation under God
Still proud and strongI believe in America
I'm proud to be in America
Though I know in America
We gotta right, some wrongsBut I don't believe you can keep
America down for long
