

# Amelia

## Conner Youngblood

Oh apricity, I feel it in my bones  
As you left me standing, burning in the cold  
With bioluminescence running through my veins  
I say, "never again, no, never again" Amelia, you make me nervous  
Hold me now; hold me now  
And lately I've been without purpose  
Hold me now; hold me now The sharks are circling all that smells of blood  
As they tear apart the pieces, there's no need to rush  
But, oh apricity, I feel it through your skin  
Now I'm broken down and basic, I say, "Never again" Amelia, you make me nervous  
Hold me now; hold me now  
And lately I've been without purpose  
Hold me now; hold me now
