Take It Away

The Butterfly Effect

What's with you making me sick
I know the reasons why
You cut to the quick but still I try
It?s all I can see and so it goes
What can you take from me
You can take it away
Here?s the trip, yeah, you think too much
I know the reasons why you're so out of touch
And so it goes, it?s all you can take from me
You can take it away
I know it's you, I guess you disagree
Take it away, take it away
Take it away, take it away
You can take it away on me
You know why, you take it away
You can take it away, from me
No, I won't buy it
