Nejra

I kick myself everyday
For falling in love with you
Looking back I saw so green
I never thought that love could ever be so cruelWell be that what it may
You know it's not that hard to say
You may be the new Mr Wonder
But you're going to need a friend when you get thereSo don't play that stupid game with me honey
Let me find out for myself
That you've got something going on
Something not with somebody elseAnd don't play that stupid game with me honey
Let me find out for myself
That you've got something going on
Something not with somebody elseI used to care to know what you were thinking
Used to care to know what was on your mind
I used to see you in my future
Somewhere close or close byI heard it all before
You just want to be free
Well if that's the case don't becoming here
And asking sweet with me
Don't be coming here now
And? sweet with me
Don't be coming here now
And? sweet with meSo don't play that stupid game with me honey
Let me find out for myself
That you've got something going on
Something not with somebody elseYeah don't play that stupid game with me honey
Let me find out for myself
That you've got something going on
Something not with somebody elseI used to care to know what you were thinking
Used to care to know what was on your mind
I used to care to know what you were thinking
Used to care to know what was on your mindSo don't play that stupid game with me honey
Let me find out for myself
That you've got something going on
Something not with somebody elseYeah don't play that stupid game with me honey
Let me find out for myself
That you've got something going on
Something not with somebody else
