# Digging Up the Devils

## Kan'Nal

I think maybe
thereâ€™s something we canâ€™t see
Something just underneath
Our abilities to perceive
I got hazy vision
Living in a smoky mirror
I sure wish I could see clearer
Through this foggy mind

So I keep diggin more
Iâ€™m gonna dig up all those devils in my soul
I keep diggin more
Iâ€™m gonna dig up all the devils in the world
And free my soul

something tells me
question what I believe
Question authority
Question just about everything
That claims to be the
Only way to salvation
Only way to reach heaven
Donâ€™t believe the lies they feed
The poor and hungry
Are running on empty
The strength in your machine is fading
Donâ€™t think we wont
Step aside and watch it fall
Do our part to stop your wars
And take you on

So I keep diggin more
Iâ€™m gonna dig up all those devils in my soul
I keep diggin more
Iâ€™m gonna dig up all the devils in the world
And free my soul
