Caught a Lite Sneeze (Alternate Mix)

Tori Amos

Caught a light sneeze, caught a light breeze
Caught a lightweight, lightning seed
Boys on my left side
Boys on my right side
Boys in the middle
And you're not hereDe do dede dedde do
De do
I need a, big loan
From a, girl zoneBuilding
Tumbling down
Didn't know our love was, so small
Couldn't stand it at all
Mr. Saint John just bring your sonThe spire is hot
And my cells can't feed
And you still got that belle dragging your foots yes
I'm hiding it, well Sister Ernestine
But I still got that belle
Dragging my foots, yesBuilding
Tumbling down
Didn't know our love was, so small
Couldn't stand it at all
Mr. Saint John just bring your sonRight on time, you get closer and closer
Call my name, there's no way in
And use that fame
I rent your wife and kids today
And maybe she will
I said, "Maybe she will"Caught a light sneeze, dreamed a little dream
Made my own pretty hate machine
Boys on my left side
Boys on my right side
Boys in the middle and you're not here
Boys in their dresses and you're not hereI need a, big loan
From a, girl zone
I need a, big loan
From a, girl zoneBuilding
Tumbling down
Didn't know our love was, so small
Couldn't stand it at all

Mr. Saint John just bring your son
