Girl I Need

Mario

I want a girl that can really blow my mind, I mean
An extraordinary one of a kind, I mean
A banging body like a CL5 double 'O' but that ain't all, oh no
I need a girl that's smart and really intelligent
A girl with heart, somebody who don't take no shit
And if you're out there make yourself known, I mean
Because I'm looking for somebody
Who gon' ride with me, die with me, cry with me
Live with me, who gon' go with me, till the end with me
That's the kinda girl that I need
She don't want my money, she just wants me only
And when I need loving she quick to put it on me
Mami's a soldier and a roller, I mean and that's just the girl I need
La dee dee, la dee dee dee, la dee day
If your out there girl on my way
La dee dee, la dee dee dee, la dee day
I'm find you one of these days
I want a girl that can hook up a shoe, I mean
A Gucci sandle or them Jimmy Choo's, I mean
She could find a pair of timbs or some
Air force ones and still look the bomb
I need a girl that's smart and really intelligent
A girl with heart somebody who don't take no shit
And if you're out there make yourself known, I mean
Because I'm looking for somebody
Who gon' ride with me, die with me, cry with me, oh yeah
Live with me, who gon' go with me, till the end with me
That's the kinda girl that I need

She don't want my money, she just wants me only
And I when I need loving, she quick to put it on me
Mami's a soldier and a roller I mean and that's just the girl I need
La dee dee, la dee dee dee, la dee day
If your out then girl I'm on my way
La dee dee, la dee dee dee, la dee day
I'm find you one of these days
I said I got, I got the material things
But that don't matter, I trade it all, if I can have her
Perfect girl in my life that will make it right

I need a girl with finess look, good in a dress to kiss and caress
I need a woman with less drama stress no fethumaness
I need a female who would know
What to do when the cops come through
Who if things get dim she'll put on her timbs and roll with the crew
I need a girl who smart who thinks
With her heart when things falling apart
I need a girl if I need a pint of blood she'll donate a quart
I need a lady who will trust me when I'm out at night
One who when it's my darkest hour shes my ray of light
She don't want my money, she just wants me only
And I when I need loving, she quick to put it on me
Mami's a soldier and a roller and that's just that girl I need
La dee dee, la dee dee dee, la dee day
If your out there girl I'm on my way
La dee dee, la dee dee dee, la dee day
