In The Name Of Angels

Men Without Hats

Jenny had a vision
Jenny had a vision of her mother dancing
In the middle of a million rainbows
And everywhere you look, were the lovers dancing
In the middle of expanding halos
And Jenny held Johnny with the sweetest promise
Please tell me which way your name goes
When all he really wanted was to be his fondest
He never really liked tornadoes
They're all in the name of angels
Singing
Johnny had a vision of the understanding
But he couldn't tell his mom or me, no!
He said it was a mission that we took for granted
Tell me which way the rain bows
And Jenny heard Johnny make the sweetest promise
And sounded like they'd won the game show
And all he really wanted was to be his proudest
He never really liked tornadoes
They're all in the name of angels
Singing
You can lose your head
You can lose your mind
You can lose your way
Keep your eyes and still be blind

And you can lose your head
You can lose your mind
And you can lose your brain
Keep your eyes and still be blind
Jenny loves Johnny like the earth and sun
In the middle of a moment they will all be one
Johnny loves Jenny like the wind and sea
In the middle of forever they'll all be free
Jenny loves Johnny like the wind and sun
In the middle of a moment they will all be one
Johnny loves Jenny like the earth and sea
In the middle of forever we can all be free
Say

You can lose your head
You can lose your mind
You can lose your way
Keep your eyes and still be blind
And you can lose your head
You can lose your mind
And you can lose your brain
Keep your eyes and still be blind
And you can lose your head
You can lose your mind
And you can lose your brain
Keep your eyes and still be blind
Mummy
