Mouth To Mouth

Vaselines

We live...
We love...
We die...
[Enrique Iglesias]She calls me up late at night
We commit innocent crime
She's such a good waste of time
But in the back of my mind
You know you're all I'm thinking of
You know you're all I'm thinking of
[Chorus]I can't catch a single breath baby
Help me now, help me now
Hurry up it's killing me the way I need your mouth to mouth, mouth to mouth
I can't catch a single breath baby
Help me now, help me now
Hurry up it's killing me the way I need your mouth to mouth, mouth to mouth
[Jennifer Lopez]Kills me to let him inside
Feels like the wrong kind of right

He falls asleep by my side
But in the back of my mind
You know you're all I'm thinking of
You know you're all I'm thinking of
[Chorus]I can't catch a single breath baby
Help me now, help me now
Hurry up it's killing me the way I need your mouth to mouth, mouth to mouth
I swear you make me feel alive
I swear you bring me back to life
I can't catch a single breath baby
Lay me down, mouth to mouth
[Chorus]I can't catch a single breath baby
Help me now, help me now
Hurry up it's killing me the way I need your mouth to mouth, mouth to mouth
I swear you make me feel alive
I swear you bring me back to life
I can't catch a single breath baby
Lay me down, mouth to mouth
