The Outsiders

R.E.M.

We can walk in straight lines
We can't see quite right
We've lost the plot
And we can't get it back
So lets lose ourselves
Lets lose ourselves
Can you spot the English here?
Let's pick a fight on whomever we like
Cause we're never wrong
Nobody likes us
We don't care
So let's lose ourselves
Let's lose ourselves
Can you spot the English here?
We can see it for real
But it doesn't make sense
We're the outsiders
We can see all this speech
Come staggering out

And we can climbs its way
To the top of that cloud
I'm away with the fairies now
[x4]This familiar environment
Gets my lungs confused
I breath in every particle
That you drive thru
That you drive thru
Well can you spot the English here?
We can see it for real
But it doesn't make sense
We're the outsiders
We can see all this speech
Come staggering out
And it can its way to the top
Of that cloud
Oh I'm away with the fairies now
[x4]
