Broken Promise Land

Claire

We built this city with our hands
And called it broken promise land
I heard the whispers on the wind
They told me how all this would endPick a point on the horizon
Don't stop until it's gone
Pick a point on the horizonLet's take a loan out on our hearts
And give a piece back every day
I wave my flag but no one sees
Let's dream ourselves away from herePick a point on the horizon
Don't stop until it's gone
Pick a point on the horizonPick a point on the horizon
Don't stop until it's gone
Pick a point on the horizonPick a point on the horizon
Don't stop until it's gone
Pick a point on the horizonPick a point on the horizon
Don't stop until it's gone
Pick a point on the horizon
