Encore

Jyshoun

Would you mind, girl, if I told you
Last night really blew my mind?
Would you mind, girl, no disrespect?
Can we do it one more time?
Should I hit you up, should I just give up?
Tell me should I just walk away?
Would you let me in, should I just give in?
I need to get you back on the stage
You're so amazing remember the time
Just thinking about you, gives me butterflies
So open the curtains and let me inside for more
You can save the bell 'cause I want you now
Baby, hit me with an encore
I want some more, I want some more
I want some more, hit me with an encore
I want some more, I want some more
I want some more, hit me with an encore
An encore, an encore
Would you like girl for me to touch you?
I can come and press rewind
Take it right back, up on your back
Chase your body every night
Should I lay you down, should we do this now?
Tell me or just give me a sign
Are you in or out, 'cause there ain't no doubt?
Make this night the night of your life
You're so amazing remember the time
Just thinking about ya, gives me butterflies
So open the curtains and let me inside for more
You can save the bell, 'cause I want you now
Baby, hit me with an encore
I want some more, I want some more
I want some more, hit me with an encore
I want some more, I want some more
I want some more, hit me with an encore
An encore, an encore, an encore
Baby, hit me with an encore
So just save the bell, 'cause I want you now
Baby, hit me with an encore

You're so amazing remember the time
Just thinking about ya, gives me butterflies
So open the curtains and let me inside for more
You can save the bell, 'cause I want you now
Baby, hit me with an encore
I want some more, I want some more
I want some more, hit me with an encore
I want some more, I want some more
I want some more, baby, hit me with an encore
An encore, an encore, an encore
