Phantasmagoria

Annihilator

I have chosen you my friend, you're mine
Locked inside this frightening dream, nowhere to hide
Every night my demons you will see
An apparition festival, through hell you'll ridePhantasmagoria
Sleep well
Phantasmagoria
In hellSomeone here is calling out your name
Look out, I play inside your brain
Fleeing from my shadows, you'll never pass my test
Don't you know that ghosts never restPhantasmagoria
Sleep well
Phantasmagoria
In hellApproaching, you writhe, we take control
Unholy inquisition, sentence very cold
My servants, demons, take you down the hole
Your mind destroyed, now I want your soulPhantasmagoria
Sleep well
Phantasmagoria
In hellPhantasmagoria
Phantasmagoria
In hell
