Bittersweet

Downsyde

Your arms around me come undone
Makes my heart beat like a drum
See the panic in my eyes
Kiss me only when I cry
Cause you always want what you're running from
And you know this is more than you can take
Baby don't forget my name
When the morning breaks us
Baby please don't look away
When the morning breaks us
Oh your touch, so bittersweet (Aahhh ah aaha)
Baby don't forget my name
When the morning breaks us
Your cheek is softly by the sun
Makes my heart beat like a drum
I know it hurts you
I know it burns you
Hot and cold in a lonely hotel room
Look into me, tell me why you're crying

I need to know
Cause you always want what you're running from
It's always been that way (oooohh)
Baby don't forget my name
When the morning breaks us
Baby please don't look away
When the morning breaks us
Oh your touch, so bittersweet (Aahhh ah aaha)
Baby don't forget my name
When the morning breaks us
Cause you always want what you're running from
Baby don't forget my name
When the morning breaks us
Baby please don't look away
When the morning breaks us
Oh your touch, so bittersweet (Aahhh ah aaha)
Baby don't forget my name
When the morning breaks us
