Imperfection

Saving Jane

My hair's a wreck
Mascara runs
My feet get dirty
And my skin burns in the sunMy lips, they bleed
But I still sing my songs
It takes me a minute
To admit it when I'm wrongPretty is as pretty does
But pretty's not my thingThis is what you get
This is who I am
Take me now or leave me
Anyway you canSometimes I trip and fall
But I know where I stand
And if you're thinking 'bout changin' my direction
Don't mess with imperfectionMy back is weak
But my will is true
Got good intentions
But I never follow throughI say too much
And don't know when to leave
In case you're looking
That's my heart there on my sleeveEgo trips and stupid slip ups
I'm a mess butThis is what you get
This is who I am
Take me now or leave me
Anyway you canSometimes I trip and fall
But I know where I stand
If you're thinking 'bout changin' my direction
Don't mess with imperfectionScratched and bruised, a little used
But baby, I work fine
You might call me damaged goods
But I'm one of a kindMy hair's a wreck
No, I'm not perfect
But I'm not the only oneThis is what you get
This is who I am
Take me now or leave me
Any way you canSometimes I trip and fall
But I know where I stand
And if you're thinking about changin' my direction
Don't mess with imperfectionThis is who I am
And if you're thinking about changin' my direction

Don't mess with imperfection
