Always, In All Ways

Kenny Loggins

Always, in all ways
You'll be in my mind
For always, in all ways
Words have been so hard to find
I still remember you as a child
Holding you in my arms
The way you looked up to me
I thought that I'd always be
I'd be there beside you
For always, in all ways
For always, in all ways
You'll stay in my heart
Always, in all ways
This distance is too far apart
I thought you'd always be daddy's child

And suddenly you were grown
Now that you're on your own
If ever you feel alone
I'll be there beside you
For always, in all ways
I never thought that this day would come
When we'd have to say goodbye
But now that your on your own
Whenever you need a home
I'll be there inside you
Always, in all ways
I'll be there beside you
For always, in all ways
