Lady Bug

Stir

If you'd be my lady friend
Would we find peace at all?
Please come see my better side
I won't be at [Incomprehensible]Lisa's gone home, my lady friend
But thankful for everything
If I got to know my lady friend
Maybe she would love meGod, I feel just like lady bug
Think I'll fly away, lady bugOh, lady bug, she's on her way
Lights my bed and lights my day
But she won't know that I'm the only one, wellI don't wanna be like Elvis
I don't wanna be like Jim
I just wanna be myself right now
I'll be better off than themGod, I feel just like lady bug
Think I'll fly away, lady bugLady bug came all the way
Lights my bed and lights my day
But she won't know that I'm the only oneLady bug was here today
Was on her own and on her way
But she won't know that I'm the only one'Coz I don't wanna be like Elvis
I don't wanna be like Jim
I just wanna be myself right now
I'll be better off than themGod, I feel just like lady bug
Think I'll fly away, lady bug
