Turning It Inside Out

Philip Selway

Sometimes I, could leave it all behind.
Step off and find a place, to make a brand new life.
And when we talk, I wonder who'll break first.
We'll take it all apart, and twist each others words.Look at us now, look at us now.
Turning it inside out.
Look at us now, look at us now.
Turning it inside out.
And it won't turn, anymore.Sometimes I, could leave and disappear.
Wait for this all to pass, and for the air to clear.
And when we talk, I wonder who'll break first.
We'll take it all apart, and twist each others words.Look at us now, look at us now.
Turning it inside out.
Look at us now, look at us now.
Turning it inside out.
Look at us now, look at us now.
Turning it inside out.
We're turning it inside out.
And it won't turn, anymore.
I've lost my place, in it all.
It's chasing all (of) my dreams away.
