Life Less Frightening

Rise Against

Suffering from something we're not sure of
In a world there is no cure for
These lives we live test negative for happiness
Flat line, no pulse but eyes open
Single file like soldiers on a mission
If there's no war outside our heads
Why are we losin'?
I don't ask for much
(Life less)
Truth betold I'd settle
(Frightenin')
For a life less frightenin'
(Life less)
A life less frightenin'
(Frightenin')
I don't ask for much
(Life less)
Truth betold I'd settle
(Frightenin')
For a life less frightenin'
(Life less)
A life less frightenin'
(Frightenin')'
Hang me out to dry, I'm soakin'
With the sins of knowin'
What's gone wrong but doing nothing I still run
Time again I have found myself stuttering
Foundations pulled out from under me
This breath is wasted on them all
Will someone answer me?
I don't ask for much
(Life less)
Truth betold I'd settle
(Frightenin')
For a life less frightenin'

(Life less)
A life less frightenin'
(Frightenin')

I don't ask for much
(Life less)
Truth betold I'd settle
(Frightenin')
For a life less frightenin'
(Life less)
A life less frightenin'
(Frightenin')'
Is there a God tonight
Up in the sky or is it empty just like me?
(Just like me?)
A place where we can hide out from the night
Where you are all I see
(Where you are all I see)
So blow a kiss, goodbye, then close your eyes
Tell me what you see
(Tell me what you see)
A lifetime spent inside this dream of mine
Where you are all I see
I don't ask for much
(Life less)
Truth betold I'd settle
(Frightenin')
For a life less frightenin'
(Life less)
A life less frightenin'
(Frightenin')
I don't ask for much
(Life less)
Truth betold I'd settle
(Frightenin')
For a life less frightenin'
(Life less)
A life less frightenin'
(Frightenin')'
