Head Down

The Showdown

Lovesick, lost and cold and lonely
With a gutful of nothing
And Iâ€™m long since past my limit
But my fuse is just a string

Friend, youâ€™ve shown me ever lonely
Trapped and pinned beneath your wing
Fear that takes the heart and shakes
And now itâ€™s left its hooks in me

Lay my head down
Breathe the dream of darkness on its way
But Iâ€™m not afraid

Put my head down
Just believe the scars were worth the pain
'Cause Iâ€™m not afraid

Life and love and ever after
All Iâ€™d say and all Iâ€™d sing
Wash it down and starve it back
To sleep tonight and not to dream

Death and taxes forth and back
We go from sin to deadly sin
And I donâ€™t know what the attraction is
But I donâ€™t see an end

Lay my head down
Breathe the dream of darkness on its way
But Iâ€™m not afraid

Put my head down
Just believe the scars were worth the pain
But Iâ€™m not afraid

Lay my head down
Breathe the dream of darkness on its way
But Iâ€™m not afraid

Put my head down
Just believe the scars were worth the pain
'Cause Iâ€™m not afraid

Lay my head down
Breathe the dream of darkness on its way
But Iâ€™m not afraid

Put my head down
Just believe the scars were worth the pain
'Cause Iâ€™m not afraid
