Sober

CVIRO & GXNXVS

Can you please remind me how you feel?
This emptiness is real, I can't bear the thought of it
And please remind me how to smile, I lost track after awhile
Is happiness so hard to get?
Is it me or is this over?
As I got sober, I watched you fade away
Is it me or is this ending?
As I was pretending, I watched you fade away
Know that time could move so slow
When we've got nowhere to go, the silence is so deafening
Waking up on the wrong side of your mind
How could I have been so blind to see I'm losing everything?
Is it me or is this over?
As I got sober, I watched you fade away
Is it me or is this ending?
As I was pretending, I watched you fade away
Oh, sooner or later, we gotta stop this elevator
You go your way and I'll go mine, I'm sure that I'll be fine
Now is it me or is this over?
As I got sober, I watched you fade away
Is it me or is this ending?
As I was pretending, I watched you fade away
Sober, as I got sober, as I got sober
I watched you fade, I watched you fade
