Only a Girl

Easton Corbin

So she left me, said so long
Yeah so what, I'll find someone
In no time, with a little luck
It don't really bother me that muchIt's only a girl
There's a million of 'em in this town
Only a girl
They're everywhere, just look around
She don't matter anymore
I'm probably better off for sure
It ain't the end of the world
It's only a girlThere goes, one now
Pretty smile, oh well
I watch her, walk by
Just keep to, myself
Cause when you're in love with someone elseIt's only a girl
There's a million of 'em in this town
Only a girl
They're everywhere, just look around
I know she just smiled at me
And as cool as that might be
It ain't the end of the world
It's only a girlWhat can keep you up all night,
Make you believe that black is white,
Make you laugh, make you cry,
Make it wrong, then make it right?Only a girl
Only a girl
