

Heartbeats

Hillsong UNITED

Love strung out I am found in the price You paid
I know that Your life is the blood running through my veins
My eyes fixed wide on the light of the cross again
I feel the weight drop in the wake of the empty grave I want You, need You

I love You Jesus
My heart beats forever
Just to know You
Let go and throw

My future into Your hands
Again Heart beats loud to the sound of a different drum
Calling me out from the crowd to pursue the One I want You, need You

I love You Jesus
My heart beats forever
Just to know You
Let go and throw

My future into Your hands I want You, need You

I love You Jesus
My heart beats forever
Just to know You
Let go and throw

My future into Your hands
Again Break me down till I soar on grace
Lead me on through the fire and rain
The rhythm of my heart beats wild
For Your endless praise

Every waking hour I will seek Your face I want You, need You

I love You Jesus
My heart beats forever
Just to know You
Let go and throw

My future into Your hands I want You, need You

I love You Jesus
My heart beats forever
Just to know You
Let go and throw

My future into Your hands

Again
Again
Again
