Burnt

Ultraspank

Crawled from my hole covered in Mud
Forced my face up towards the sun
Burnt, this happened to me once before
Now I make myself go back againThey've known me, smothered me
Forget life and accept then I wait
I don't need you
(I don't need to know)We'll be down here
(Live without a clue)
I don't want you
(You resist me)
Came here to exist
(I don't want all of this)Rubbing me out, pushing me down
It's picking me up stooding me on
Starving me, surviving me
Starving me, surviving meLeaving me still see the gap
They've known me, smothered me
Forget life and accept
I don't need you
(I don't need to know)We'll be down here
(Live without a clue)
I don't want you
(You resist me)
Came here to exist
(I don't want all of this)Rubbing me out, pushing me down
It's picking me up stooding me on, burnt
