Look Into the Sky

Marlon Asher

People are hypnotized
Lost in the city of the damned
Dreaming rivers of deceit and lies
As the shake one another's hand
People fill you with poison tongues
Slithering snakes in the world of sorry sons
Loose lips sink ships but you know you're not the only one
On the bottom of the ocean is the story of what we've become
So don't believe them
Look into the sky
Look into the sky
Look into the sky
And ask for him
People fill you with their lies
Try to notify your next of kin
See the lost children in their eyes
Before you decide if you want to be like them
So don't believe them
Look into the sky
Look into the sky
Look into the sky

And ask for him
Look into the sky
Look into the sky
Look into the sky
And ask for him
He's your real friend
People will fill you with their noise
To try to make you feel as bad as them
Bribe you with silk and expensive toys
On the rooftops of hate and sin
So don't believe them
Look into the sky
Look into the sky
Look into the sky
And ask for him
Look into the sky
Look into the sky

Look into the sky
And ask for him
He's your real friend
