Amillionite

Sticky Fingers

Come and get some Amillionite
I seen your face but I let you down
People say you're real strung out
I turned you down and now I'm outCan I come and see you?Wont let you drift on and out of sight
Like tears in rain, you know I'm always thereI'm always waiting for youMaybe one day we'll hang out
And I'll make it up
I'll make your stars shine outCan I come and see you?
I'm always waiting for youYou can hide upon a shelf
But you'll never get away from yourself
Not in your wildest dreams
For now we're best not to hold so tight
I feel your pain
We gotta let goBut I don't want toMy friends said I should leave this house
They're out the door
So imma burn it downDon't burn me outI got the fear I'm someone else
Becoming a ghost forgotten
So if you like I'll scare what haunts you
And if that's me I'll disappearEvery day gone
You'll forget me
And maybe that it's mean to be
x2Come and get some
Come and get some
Come and get some Amillionite
What you said to me
